

REDIAL has a new project launching...

Reframing attitudes of minors and youth at risk of offending / re-offending through training

What do we plan to do?

- Strengthen competences and basic skills of young offenders/at risk of offending, to support a successful transition into the labour market
- Develop activities focusing on the strengthening of inclusion and employability of those with fewer opportunities

We invite you to follow our progress as we assess the key competences that will increase the employability of those most far away from the labour market.

We will be developing a bespoke e-course, plus many more exciting developments.

## REDIAL has news...

Reframing attitudes of minors and youth at risk of offending / re-offending through training

Our E-LEARNING platform is now live

We have developed a bespoke E-Course to enhance employability skills, close the digital gap and support successful transition into the labour market.

Please click here to register and get started

REDIAL has more news...

Reframing attitudes of minors and youth at risk of offending / re-offending through training

On the 25<sup>th</sup> January 2024, REDIAL hosted an event to showcase the results of the above project.

This event created the opportunity to form a network, a community of professionals to share information, knowledge and experience within the sector.

There was a huge appetite in the room to embed the Youth Regained methodology into their practice.
