YOUTH REGAINED

**Reframing attitudes of minors and youth at risk of
offending / re-offending through training**

Press Release 1

Prepared by SYNTHESIS

December, 2023

No. 2021-1-RO01-KA220-YOU-000029132

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the National Agency and Commission cannot be held responsible for any use which may be made of the information contained therein.

The YOUTH REGAINED partnership is excited to announce the introduction of its innovative e-course platform, aimed to improve the employability and social integration of juvenile offenders and kids at risk. This cutting-edge digital learning environment is the result of considerable collaboration between local NGOs, CSOs, educational institutions, and authorities from around Europe, with the goal of addressing the critical issues that young people confront in finding their place in society after being released.

The e-course platform provides a full suite of training programs aimed at improving core employability skills, with a particular emphasis on soft skills development, critical thinking, and leadership. Developed by professionals and improved with direct feedback from young people and educators, the platform exemplifies the power of community and technology in establishing new paths for those in greatest need of assistance.

The key features of the e-course platform include:

- **Interactive Learning Modules:** Engaging information tailored to a variety of learning styles, ensuring that users not only learn but also feel encouraged to apply these abilities in real-world circumstances.
- **Self-Paced Progression:** Learners can move through the courses at their own pace, allowing for a more personalized learning experience that fits around their schedules and responsibilities
- **Accessibility:** The platform is accessible from anywhere, at any time, breaking down geographical and logistical barriers to education for youth across Europe.

We invite educators, mentors, youth workers, and all stakeholders involved in youth development and reintegration to explore the e-course platform and promote it to those who can benefit. Together, we can make a big difference in the lives of young people, guiding them from past challenges to a future full of hope and opportunity.

For further information, access to the e-course platform, and how to participate, please visit www.platform.youthregained.eu/courses/e-learning/ or contact us at info@synthesis-center.com
